DETAILED ACTION

Allowable Subject Matter

1. Claims 1 – 9 are allowed over the prior art of record.
2. The following is an Examiner's statement of reasons for allowance: Wang et al. in the U. S. patent 6,362,087 B1 substantially discloses the claimed invention. However, Wang does not show, teach or disclose "forming a passivation insulation layer over the silicon surface exposed by the removal of the mask layer with the metals remaining in the at least first and second openings and protruding beyond the surface of the passivation insulation layer and terminating in a common plane above the passivation layer" as stated in claim 1.

Wang discloses forming the passivation insulating layer *before* forming the metals in the at least first and second openings. There is no reason, aside of improper hindsight to state that Wang discloses the invention as claimed or that it would be an obvious variation of the invention of Wang. Therefore the claimed invention as a whole is neither anticipated nor rendered obvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
